

REPUBLIC OF NAMIBIA

MINISTRY OF HEALTH AND SOCIAL SERVICES

UPDATE BY DR. KALUMBI SHANGULA, MINISTER OF HEALTH AND SOCIAL SERVICES ON COVID-19 IN NAMIBIA.

3 July 2020 (late edition)

WINDHOEK

**Check Against Delivery*

1. Good evening Fellow Namibians! We have recorded fifteen new cases of Covid-19. They are all Namibians from Walvis Bay. Thirteen (13) are females and two are (2) males. The youngest one is 4 years and oldest one is 51 years old. Nine (9) are contacts of confirmed cases. Twelve (12) had symptoms consistent with COVID-19 at the time of specimen collection. Four were identified through active case search. They are all in stable condition. Contact tracing is ongoing.
2. During the morning update, I erroneously indicated that only one case was from Windhoek. In fact, there are two cases from Windhoek and not one. The second case is that of a patient who was referred from Walvis Bay to Windhoek. The specimen was collected and tested in Windhoek. Therefore this is a Windhoek case.
3. Status of Covid-19 is as follow:

Confirmed cases	350
Newly confirmed	15
Recoveries:	25
Active cases	325
Deaths	0
Total samples tested	10 283
Active contacts	1 076
Cumulative number of people quarantined	3 917
Number of quarantined people discharged	3 023
Number of people in quarantine	894
