

From the desk of Dr. André Schulz

Dear Esteemed Business Partner,

With our current flight program to and from Namibia, the Lufthansa Group offers our customers a reliable connection five times a week between Windhoek and Frankfurt. Through our extensive Hub network, we can further extend our flight offering to just about any corner of the world. Today I would like to provide you with some important updates regarding our upcoming flight schedule for the Namibian market.

At the start of April 2021, the Lufthansa Group introduced our fifth frequency between Windhoek and Frankfurt, signifying the importance of the Namibian market within our global route network strategy. These flights have no doubt been received with much anticipation and today I am pleased to announce that we will continue with our planned five weekly frequencies throughout 2021. From the beginning of August 2021, we will move our flight operations to/from Namibia under our new leisure brand, **Eurowings Discover**. Due to operational reasons, there is however a need to implement some adjustments within our flight plan in order to maintain these planned frequencies.

Until the end of May 2021, our existing flight schedule to/from Windhoek shall remain unchanged. From the beginning of June until the end of July, our Windhoek—Frankfurt route will be serviced by Lufthansa and together with this adjustment, we will move our Windhoek flight departure to an evening flight service. Thereafter, from August 2021 we will move all flight operations to/from Windhoek under our new **Eurowings Discover** brand and continue operating an evening departure from Windhoek. For ease of reference, please refer to the overview of our planned schedule below:
